

Idaho Rally 2019 Bulletin #5

B5.0 Purpose; Information regarding Side by Side class Remote Refueling on Leg 1, and updates to information contained in the Supplementary Regulations

B5.1 While ARA RCR section 1.5 only requires service after 90 miles or 45 stage miles, SxS vehicles that are in compliance with SxS Technical Rules 2018 article 13.A may be unable to comply with both the maximum distances defined in RCR 1.5, and the actual distances before Service 1 at Idaho Rally International 2019. Because of this a remote refuel has been included in the transit between stages 1 and 2 for SxS entries only.

B5.2 This remote refueling will take place next to the Placerville Fire Station, at the location noted in the route book at instruction #5 on page 10 of the route book.

B5.2 SxS Competitors planning to take advantage of this remote refuel stop will need to have their fuel cans, not more than 5 gallons, delivered to the designated refueling truck/trailer at Parc Expose on Friday

B5.3 (Supps section 2.5) The role of Chief Scrutineer will be filled by;

Michel Hoche-Mong

hoche@grok.com

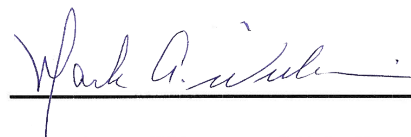

(831)234-8726

B5.4 (Supps Section 7.0 Radio frequencies).

Meadow Creek Stage: Stage HAM Communications will be conducted on 145.290- pl 110.9 (the same repeater parameters used on Harris Creek Saturday)
